The REINFORCING project

- REINFORCING aims to become the Open and Responsible Research and Innovation (ORRI) **central point of knowledge and expertise** that supports territories and institutions in fostering Fair Transitions governance by aligning with societal values, needs and expectations.
- **REINFORCING One-Stop Source** platform acts as catalyzer of the quadruple-helix community, who will co-develop services, including policy recommendations.
- The project supports **institutional changes** aiming at responsible sustainability transitions through **96 grants** dedicated to boost institutions scaling up their ORRI capacities, and to support European regions experimenting with ORRI.
- In addition, **mentoring and matchmaking services** and training modules will be provided and a **Global ORRI Network** will be established.
